Physical Education Shoe Recommendation:

1. Look for shoes that will provide good ankle support
2. Purchase the proper size to fit
3. Check the soles of the shoe for support and a non-slippery surface.
4. If shoes are intended to have laces, make sure the laces are worn correctly to be tightened and safe.
5. Socks need to be worn with shoes to absorb sweat and prevent blisters.
6. The soles need to be of normal height because of the chance with turning an ankle.
7. Hiking boots or anything with metal buckles, loops, zippers, and any part that stick out are prohibited for safety.
